

PURITII™

AFFORDABLE, PORTABLE, SUSTAINABLE SOLUTION.

Every day you strive to drink your 8–10 glasses of water, because if there's one thing we all can agree on, it's that water is good for our bodies, and we never drink enough of it! You drink it every day in your home, office, at the gym, and everywhere in between. But what if the water you drink isn't as safe as you think?

The truth is that today, trace amounts of contaminants washed down showers and sinks, and flushed down toilets, end up in our drinking water.

Thinking bottled water? Think again. It's expensive. And what about all that plastic waste?

Enjoy clean, purified water on-the-go with Puritii™. Available in a 740ml, eco-friendly, refillable plastic bottle, the Puritii Water Filter uses a two-part filtration process to remove a full spectrum of contaminants. It's your affordable, portable, sustainable solution!

SUPERIOR, BROAD-SPECTRUM FILTRATION

The antimicrobial filter removes biological, chemical and emerging contaminants while meeting and exceeding standards set by the NSF and EPA*. It filters out these toxins in a proprietary blend of fine ground coconut carbon and zeolite, while releasing a positive electrostatic charge, which attracts and traps negatively charged microbial and chemical pollutants.

WASTE REDUCTION

Just one replaceable Puritii water filter can filter 227 litres of water, which is about 3 months of daily use, and equals up to 450 bottles of water, with the potential to keep 2,700 plastic bottles out of landfills and oceans each year!

EASE-OF-USE

The entire system is compact, lightweight and made with eco-friendly plastic free of Bisphenol A (BPA), Bisphenol S (BPS) and estrogenic activity (EA).

COST EFFECTIVE

A Puritii water filter averages \$0.29/€0.26/£0.22 per litre, while generic bottled water averages \$0.35/€0.31/£0.26 per litre, and name-brand bottled water averages \$0.66/€0.59/£0.50 per litre. The average EU consumer can save an estimated \$505/€449.46/£383.63 per year.**

When you want clean water, whether you're at yoga class, the park, or faced with a natural disaster, Puritii is the answer. Wherever you are in the world, rest assured your water is safe.

FILTER OUT HARMFUL CONTAMINANTS

MICROBIALS

Bacteria, Virus, Parasite

TRIHALOMETHANES

Bromodichloromethane, Bromoform, Chloroform, Chlorodibromomethane

HEAVY METALS

Lead, Copper, Mercury, Arsenic, Chromium

PESTICIDES

4,4'-DDT, Aldrin, Endosulfan 1, Lindane

CHEMICALS

Chlorine, Fluoride, Benzene, Styrene, Isopropylbenzene

EMERGING CONTAMINANTS

Ibuprofen, Naproxen, Estrone, Bisphenol A, Perfluoro-n-Octanoic Acid (PFOA), Perfluorooctane Sulfonamide (PFOSA)

STAY HYDRATED, SAVE MONEY AND HELP THE PLANET! ORDER TODAY!

MICROBIAL

Gastro-enteric diseases

HEAVY METALS

Liver, kidney, circulatory system disorders, skin, nervous system, gastro-enteric diseases

CHEMICAL

Eye/nose irritation, stomach discomfort, brain and thyroid disorders, cancer, leukemia, anemia

TRIHALOMETHANES

Muscle, nervous system damage

PESTICIDES

Cancer, reproductive damage, liver, kidney, nervous system damage

EMERGING CONTAMINANTS

Endocrine disruptor, reproductive and neurodevelopmental disorders

Internal pollution is a growing problem. Check out puritii.com for more information on our Air Filtration System.
